

## CATCH-UP STATEMENT

The Government have provided schools with funding to provide school led tuition for pupils. The breakdown of pupils receiving tuition is outlined below. Children were identified during pupil progress meetings with teachers and the tuition is being carried out by teachers and teaching assistants who are in class with the children during the day.

Brookside is being provided with funding for 32 children (calculated from the October 2020 census). The allocation for Brookside (75% of expected costs) is £6480 in 2021/2022.

We are using our catch-up funding to provide small group tutoring in English and mathematics. Ongoing assessments and pupil progress reviews will ensure that all children who require access to the catch-up programme are identified and supported so that every child has the best possible chance of making the necessary progress.
